

METAL OXIDES REMOVAL AGENT

Removal agent for metal oxides residues

RUST

ALUMINUM
OXIDE

IRON
OXIDE

OTHER
METAL
OXIDES

Benefits

- **Easily removes metal oxides** that are otherwise hard to remove without scrapping and risking damaging the modules
- **Developed** specifically for PV modules and tiles
- **No more scrapping** - reacts with the metal oxides particles making them easy to remove
- **Tested by TÜV Sud** - does not damage the ARC, the silicone or the aluminium frame
- **Act preventively and protect the modules**, in case of frequent contamination, with one of our antistatic coatings to avoid the recurrent use of the Metal Oxides Removal Agent

Applications

- PV solar plants, thermal solar plants, PV solar tiles, etc.
